# Mitigating Circumstances

## 1. Introduction and Scope

During their studies, students may suffer from illness or misfortune that adversely affects their ability to complete an assessment. This Policy sets out the University's arrangements for considering requests for mitigation in such circumstances.

This Policy applies to all students including those on undergraduate, apprentices, postgraduate taught and research courses, and all those studying a University of Central Lancashire Award directly with the university or with a partner in the UK or Overseas.

## 2. The Policy

The University defines mitigating circumstances as 'unforeseeable or unpreventable circumstances that may have a significant adverse effect on the academic performance of a student'.

Students should make themselves aware of this policy and how to submit a Mitigating Circumstances application to request an extension. Students are responsible for submitting requests for mitigating circumstances however by agreement, University Staff and the Students' Union can support students with the process of making applications for Mitigating Circumstances.

### All Students (other than Postgraduate Research)

The following part of the Policy applies to all Students except for those on Postgraduate Research programmes.

The timeframe permitted for any extended coursework submission due to mitigating circumstances is up to 14 (calendar) days. Longer requests, or when requesting an extension for an exam, in-class assessment, or other assessment types where an extension is not appropriate or possible these are a 'deferral to next assessment period'.

### Pre-panel triage

Following application there may be a pre-panel administrative triage in place that will consider applications in advance of a panel and may approve or decline on the following basis -

- Approve applications from students that have pre-agreed flexibility with deadlines - (inc. specific disability support and carers)
- Decline applications without Evidence that apply with for an extension that requires evidence on submission.

## Mitigating Circumstance Panel and Personal Tutor role

The purpose of the Mitigating Circumstance Panel is to make a decision on the application.

- The Panel will convene within 5 working days of an application for an extension.
- The application will be considered by the panel to ensure it meets all necessary points detailed in the 'Criteria' section of this policy.
- The panel can make the following decisions:
  - a. Agree an extension of up to 14 (calendar) days.
  - b. Refer the application to the Personal Tutor (or equivalent in Partner institutions).
  - c. Decline the application.
- The Panel will usually communicate its decision on the same day.

The Panel decisions

- a. Extension agreed by the Panel is made when -
  - The information provided in the application meets the necessary points detailed in the 'Criteria' section of the policy.
  - An application is a request for 14 or fewer calendar days extension.
  - The application is for an assessment where an extension is possible –e.g. Not for an exam or in-class assessment, or other types of assessment where an extension is not appropriate or possible – Those assessments which are not appropriate for standard extensions (up to 14 days) should be communicated by course teams to students in advance.
- b. A refer to the Personal Tutor (or their equivalent at a Partner Institution) decision is made when the information provided in the application meets the criteria detailed in the 'Criteria' section of the policy and one or more of the following-
  - An application is a request for more than 14 days, a 'deferral to next assessment period'.
  - The application has been due to a fatality or other circumstance where a further conversation with the student is required.
  - The application is for an assessment where an extension is not or may not be possible – e.g. for an exam or in-class assessment, or other types of assessment where an extension is not appropriate or possible.

When necessary, a Mitigating Circumstances meeting will be held between the Personal Tutor and Student within 5 working days of the referral to the Personal Tutor being made. At this meeting -

- A new deadline may be agreed with the Personal Tutor
- In some circumstances it may not be appropriate or possible to approve an extension and the original deadline will be final.

The outcome, and when applicable, new deadline dates will be confirmed with the student.

- c. A Declined Application decision is made when -
  - The information provided in the application does not meet the criteria detailed in the 'Criteria' section of the policy.
  - If it is not possible for an alternative date to be approved by the Personal Tutor.

## **Late Submissions without Agreed MCs**

Students who submit work within 7 calendar days after the published submission date without an authorised extension granted through the Mitigating Circumstances process - will be awarded the maximum of the minimum pass mark for that element of assessment (including work graded pass/fail, where the minimum grade would be 'pass'). All work submitted later than 7 calendar days after the published submission date without an authorised extension granted through the Mitigating Circumstances process will be awarded a mark of 0% for that element of assessment (work graded pass/fail would receive a 'fail').

## **Postgraduate Research Students**

The following section applies to Students studying postgraduate research programmes.

The duration and application of Mitigating Circumstances across the programme will be considered by a Mitigating Circumstances panel who will convene weekly. The panel will grant extensions of up to 7 calendar days or decline the application, communicating the outcome to the student the same day. Where the panel considers a longer period of extension may be required, they will refer the case to the Research Degree Tutor via email for a Mitigating Circumstances meeting to be conducted between the Research Degree Tutor and the student.

Research Degree Tutors can grant a maximum of 14 calendar days for a final programme deadline as detailed below:

- Expected thesis submission date.
- Lapse date
- Post-viva Thesis corrections deadline following examination.
- Post-viva Thesis resubmission deadline

For extensions to an in-programme deadline (listed below) Research Degree Tutors can grant up to a maximum of 10 weeks where overall progress is not impeded, and the final submission deadline is not altered.

- Research Programme Approval
- Annual Assessment of Progress
- Transfer from MPhil to PhD (MPhil/PhD students only)

Only one extension per assessment point/deadline is permitted.

## **Principles - All Students**

Procedures for handling mitigating circumstances are defined in an associated procedure document for those students taught/completing research directly by UCLan in the UK partner organisations may have their own procedural guidance or information.

Requests for mitigation must be processed formally and judged impartially.

The procedures will be applied consistently and in line with this Policy, to apply equally to all students to allow Schools to meet any discipline-specific or professional body requirements.

Not all difficult or distressing events will constitute mitigating circumstances; there must be a demonstrable adverse effect on the student's academic performance, which may take several forms:

- The student was unable to submit work by a deadline or attend a scheduled test, examination, or practical activity.
- The event or circumstance may have caused the student to underperform in an assessment, either in the preparation for the assessment, or on the day (i.e., whilst completing a piece of coursework or undertaking revision and/or sitting an examination).

## Criteria

For a claim to be accepted, the student must be able to demonstrate that mitigating circumstances are **ALL** of the following:

Significant	The event or circumstances must have had a serious impact on their studies.
Unexpected	The student must normally have had no prior knowledge that a particular event or circumstance would occur.
Unpreventable	There must have been no reasonable steps that the student could have taken to prevent the event or circumstance from occurring.
Relevant	The student must be able to link the event or circumstance, and its impact, on the period for which the application is being made.
Evidence	An application for mitigating circumstances must meet the normal requirements for independent documentary evidence (see Evidence section).

## Timeframes

### Early Applications

Early applications for Mitigating Circumstances should demonstrate how they meet the 'Unexpected' and 'Unpreventable' criteria.

### Late Applications

Applications for Mitigating Circumstances submitted after the assessment deadline or examination date will not be considered without a credible and compelling explanation as to why the circumstances were not known in advance or why the student was unable to submit an application prior to the published date. This could include but not limited to periods of Hospitalisation.

This is apart from those requests made because of circumstances that have arisen on the day of the deadline or examination. Where the request for mitigation relates to circumstances occurring on the assessment deadline or examination date, the student must submit their Mitigating Circumstances application through the process within 3 (calendar) days of the deadline. This includes where examinations have been started but cannot be completed because of unforeseen circumstances.

## Number of Submissions

A student cannot submit the same standalone individual circumstance as a request for mitigation more than once unless the student can show that the circumstance has exacerbated in some way, or the effects on the student have lasted longer than expected.

## Assignment Submission whilst awaiting a Mitigating Circumstance application decision.

Students that are awaiting an outcome of their Mitigating Circumstances application should continue with their work and make a submission that meets the originally set deadline. If the Mitigating Circumstances application is declined the submission in advance of the deadline will be the submission.

If MCs are later granted, then the student will be allowed to make **one** further submission in advance of the new deadline. If a further submission is not made in the extension period, the first submission will be considered the only submission. If a further submission is made during the extension period, the first submission will be disregarded and the second submission will be marked. There is no automatic right for an extension to be granted.

## 3. Guidance

Guidance is updated from time to time to support the application of the policy, up to date guidance can be found here -

- Student Guidance ([UCLan Student Hub](#))
- Staff Guidance ([UCLan Staff Intranet](#))

### Examples of circumstances normally considered with Evidence include:

- Serious personal illness or personal injury, or a significant change or deterioration in a long-term condition.
- Victim of crime (usually with police crime number)
- Jury service.
- Involvement in a criminal case/witness.
- Failure in, or inaccessibility of, School/University provided equipment.
- Failure in the provision of reasonable adjustments

### Examples of circumstance that do not require further evidence at the point of application:

- The death of someone you are close to.
- Confirmed Carer Status
- 'Flexibility with Assessment Deadlines' – adjustment confirmed by Student Services

### Circumstances that will be considered with evidence include:

- Personal problems/trauma/family crisis/domestic issues/unexpected issues with childcare provision.
- Illness of a close family member.

- Planned medical operation (if advance notice is provided).
- Planned hospital tests (if advance notice is provided).
- Unforeseen consequences of disability which have not been mitigated by agreed reasonable adjustments.
- Unforeseen accommodation issues, outside of the student's control (this would not include house moves caused due to the end of a lease).

**Circumstances that will NOT normally be considered include:**

Support needs that have not previously been shared/declared to the University these should be declared to Inclusive Support to ensure adjustments can be considered.

Other events which you are reasonably expected to manage, for example:

- Issues due to time mismanagement
- Lost (electronic) coursework that is not backed up.
- Domestic events like house moves, holidays or family celebrations.
- General pressures of multiple deadlines
- Traffic difficulties
- Illness you did not seek medical advice for at the time (or do not have evidence you sought advice for).
- Pregnancy - (Excluding illness, associated medical appointments and proximity to due date).
- General examination nerves (where no diagnosis of a mental health condition has been received).
- Mistaking a deadline, misreading the examination timetable, or submitting the wrong assignment in error.
- Paid employment for full time students resulting in time management issues.

**Ongoing circumstances and long-term health conditions**

You will not normally be awarded mitigating circumstances for known or ongoing circumstances unless there are events beyond your control that prevent you from accessing support. You will need to provide evidence to support this.

## **Circumstances with an impact on all students, or groups of students**

Sometimes there will be unanticipated circumstances which have an impact on all students, or specific groups of students. Where this is the case, the University will take action to apply mitigation and will let students know what this will be. For example, where there is industrial action or public health requirements which impact on learning and teaching arrangements, action will be taken to adjust teaching and learning arrangements for students, and consideration will be given to mitigate the impact on assessment, for example by assessing content taught, or changing the method of assessment. If a student considers that this impact affects them severely and is not mitigated by the action taken by the university, they should apply for mitigating circumstances in the normal way.

## **4. Evidence**

Applications for mitigating circumstances will not normally be considered unless they are supported by independent documentary evidence.

### **Evidence must be:**

Independent evidence from a third party that knows you in a professional capacity (GP, police, hospital).

### **Or**

Supporting information/documentation that students receive when being supported by Student Services can be used to support an application- for example an appointment confirmation email with Counselling, Mental Health, and Wellbeing team.

### **All evidence should -**

- Be clear photographs or scans of documents.
- Identifiable - have the students' details on.
- Confirm who is providing the Evidence (Person or organisation). e.g.:
  - Letter-headed correspondence (Ideally be signed by an appropriate third party)
  - Email from XX
  - Text from XX
- Include date of evidence
- Include date and duration of issue/incident (if applicable).
- Where possible state the impact of the issue
- Be written in English.

Fit Notes ***should include the second page*** that includes patient name and address.

NHS APP - both pages should be included showing the patient's name.

The evidence can be redacted if the appropriate information is still visible.

**In certain circumstances academic/school staff can support the application with an email to the student and this should be attached as evidence. For example:**

- Failure/Availability of Specialist Equipment - Academic Staff can support applications where it is accepted are for course situations beyond the student's control for example the failure or the availability of Specialist Equipment required to meet the learning outcome.
- Placements - Unforeseen issues with placements their supervision or sign-off may be supported by Academic staff.
- Degree Apprentices only - The following are only accepted as evidence for a Mitigating Circumstance for Degree Apprentices with supporting evidence from the Employer (e.g. a Supervisor/Manager) or the Academic/Assessors with knowledge of the placement/situation.
  - Employment pressures (e.g. workloads or peak periods of activity for the company)
  - Illness, family pressures, mental health/wellbeing that have been disclosed to the employer.

**Evidence that will NOT be accepted:**

- Photographs of non-documentary Evidence - for example:
- Incidents (such as car accidents).
- People or body parts/injuries and illness
- Photographs of COVID lateral flow test
- Pets
- Documents that do not confirm the identity of the student and relevant date.
- Assignment briefs

All documentation that does not meet the criteria set out above under 'All evidence should'.

Personal information about third parties, for example the illness of a family member should not be submitted to the University unless necessary. By disclosing data relating to a third party to evidence their mitigating circumstances application, they are confirming that they have the consent of the third party to do so.

To authenticate evidence and information supplied, the university may make further checks or require further evidence or information from the student. To falsify documentation used to evidence Mitigating Circumstances may result in disciplinary or fitness to practice action by the university.
