Wonder Wands Ltd is a wand making company who design, manufacture and sell a range of very expensive, superior wands in their store. Magic Stuff Ltd supplies all the materials Wonder Wands Ltd use in their wands.

One day Tumble Wizard came to buy a wand and lost total control of it, causing mayhem and extensive damage. Wonder Wands blames Magic Stuff for providing faulty materials, whilst Magic Stuff blames Wonder Wands for letting an inexperienced wizard test such a powerful wand.

Mediators have been called in to help the wizards resolve their dispute.

Come and watch the mediation unfold!
